To whom it may concern

Testimonial: Electrical Upgrade Project, Eagle Farm Racecourse - Energize Electrical Safety
Management (EESM)

On behalf of Brisbane Racing club, I would like to express our appreciation to the Energize Electrical Safety Management (EESM) for their performance in delivering a challenging and essential project for our facility.

As the Head Contractor for this project EESM managed a multitude of subcontractors with careful precision and professional manner. EESM was extremely proactive from the beginning to the end of the project. They approached the project in a solution oriented base making the project run smoothly and on time on a very challenging old site.

EESM went above and beyond in the project with managing interests of the stakeholders including the public access the site while managing the project work on a day to day basis. Their commitment to getting the project done well and on time was most appreciated by all of us at BRC.

We are well satisfied with the quality of the overall outcome of the project and how EESM has conducted themselves as the head contract.

We wouldn't hesitate recommending EESM
