**Subject:** Thanks Gents

Hi Gents, I don't get the opportunity to do this often but I am compelled to thank you both, and your team, for your consistent and focussed effort throughout the Vic Park project.

Keith, I felt confident having you coordinate the major shutdowns and believe your involvement was fundamental for the project's success.

It was a difficult project, many challenges and stakeholders to consult and appease. The electrical/comms was a central if not governing, high risk component of works with major outages/complications having the potential to shut down the inner city network with substantial financial consequence to Energex.

As a result of good process and management we navigated and completed the project on budget with no major incident or injury.

I look forward to working with you in the future soon and have no hesitation recommending Energize to Industry colleagues.

Regards

**CARLO MARTELLI**
